Dear Keith

We trust the following testimonial for the project work at Andyfreight Business Park will assist your future contracts.

Andyfreight has worked closely with Godfrey & Co on our newest and most exciting project to date, the construction of our brand new purpose built warehouse. This new warehouse has been absolutely crucial to our continued growth in the industry, and we rightly entrusted the huge responsibility for getting the job done properly to Godfrey & Co.

They provided us with highly competent quantity surveyor and project management skills, without which our warehouse would not have been delivered to time and cost. They kept us fully apprised regarding the build progress, managing problems smoothly and confidently. They communicated clearly with all contractors to keep the project moving forwards, and provided us with invaluable advice across the full range of building works.

We worked very closely with Keith Mole, Director, who provided invaluable advice and guidance throughout the project. Keith supported us with the adjustments and modifications that were required mid project. The utilization of Godfrey & Co allowed us to concentrate on our primary role during the project.

Our new warehouse has helped to propel Andyfreight to new heights in the very competitive logistics industry and Godfrey & Co have been instrumental in helping us to achieve this.

Yours sincerely

Andrew Pountney
Managing Director
