Testimonial

We were recommended to Godfrey and Co by our architect and can say that is was the best recommendation we have ever had. They were involved from start to finish on our job and were always on hand with any advice as well as query. Godfrey and Co were the most valuable people we employed for our job. They understood every aspect of the job and as clients they completely knew and understood our needs. We were kept informed and understood our costing at every stage. They were spot on with everything and saved us more than we could imagine as well as keeping us informed where savings where able to be made. I couldn't recommend them any higher and would certainly be using them for any future developments

Nicola Soggee

Directors: Mr. & Mrs. D. Soggee. South West Care Ltd.

Matron: Mrs. S. McCallum RGN.
